Personal Qualities and Skills

- Flexibility and adaptability in regards with new technologies and environments
- Motivated and motivator
- Intelligent
- Team player
- Natural leader
- Combination of technical and business visions to reach the company goals
- Good communicator
- Good mentor

Technological and Technical Skills

- Project and team leadership.
- Software Architectures (1, 2, 3 and N tier), for example J2EE implementations.
- Object programming and design, architectural and design patterns, antipatterns.
- Systems integration.
- Internet/Intranet/Extranet-related technologies (Taglibs, JSP, Servlets, HTML, XML, XSL, HTTP, etc)
- Distributed Systems.
- RDBMS (Oracle, Microsoft SQL Server, PostgreSQL)
- Programming languages (Java, Python, Smalltalk, C++, C, Visual Fox, etc)
- Administration of Operation Systems (Linux, Solaris, Unix, Windows 2000), Web Servers and Servlet Containers (Apache, Tomcat), Application Servers (JonAS, WebSphere), and others (SaMBa, etc)
- Concept, technologies and applications related to B2C, B2B, P2P, eCommerce and variants.
- Web services, SOAP (Axis and other implementations), XML-RPC.
- Systems security (SSL, TLS, VPN, encryption and hashing algorithms), Firewalls, Proxies, Certificates and digital signatures.

Languages (Written and Spoken)

- English (good level).
- French (some knowledge)
- Spanish (native)

Studies

- **Master in Administration of Communications and Information Technology**
Argentinian Catholic University (UCA - Universidad Católica Argentina) and Industrial Organization School (EOI - Escuela de Organización Industrial), Spain
- **Information Systems Engineer**
National Technologic University (UTN - Universidad Tecnológica Nacional) (Regional Faculty Buenos Aires)
- Several courses of *nix system administration.
